“CORE” CONCEPTS FOR OIL AND GAS COMPANIES

Buckee, J.W., Talisman Energy Inc., Suite 2400, 855-2nd St. SW, Calgary, Ab, Canada T2P 4J9

As is evident from the conference program, the oil and gas industry can be a very complex tangle of technology, economics, finance, regulations, theory, practicality and risk. Dr. Buckee’s introductory remarks for the conference will touch on a few “core” concepts, fundamental to all oil and gas companies - whether they are emerging juniors or multi-national integrateds.
