

Geological Input for the Development of the Paya Terubong-Relau Area, Pulau Pinang

CHOW WENG SUM & FERDAUS AHMAD

Minerals and Geoscience Department Malaysia
Jln Sultan Azlan Shah, 31400 Ipoh, Perak

The Paya Terubong-Relau area was investigated to provide geological information to enable development of the area. The results of the investigation will assist town planners to prepare landuse zoning maps and engineers to prepare preliminary construction design.
